# ABRAHAM'S PILLS,

THE GREAT REMEDY OF THE NINETEENTH  
CENTURY FOR

## LIVER AND KIDNEYS.

Prepared from Dandelion, and not a trace of mercury or minerals : simply culled from Dame Nature's Garden. Have now been taken successfully in the Colonies and India for the last thirty years, and are admitted by thousands to be the safest and only genuine Pill for all that may be wrong with the Liver and Kidneys, with its inevitable consequences—Biliousness, Indigestion, Headache, Sickness, Shoulder Pains, Heartburn, Dizziness, Constipation, and Flatulence.

### A SAFE MEDICINE FOR LADIES.

The reason is, they are purely a vegetable composition of Dandelion, and expressly suited to the constitution and requirements of women. This explains the great success and golden opinions which follow their use. Thousands say they save all trouble, effectually remove all impurities of the blood, beautify the complexion, no headache, no pain, no flushing, no giddiness, no anxiety. They make work a pleasure and existence a joy. Superior to any other known remedy.

—:O:—

*Sold Everywhere at 1s., 2s., and 5s. per Box.*

—:O:—

Beware of imitations, and do not be deceived by misrepresentations.  
Ask for ABRAHAM'S PILLS, and let no explanation or solicitation induce you to accept a substitute.

PREPARED ONLY BY

# J. S. ABRAHAM,

434 GEORGE ST., SYDNEY, N.S.W.

# J. W. AYSCOUGH,

## Pharmaceutical Chemist,

PETRIE TERRACE, BRISBANE.

**Neuralgia Pills**—Proved to be an infallible remedy for this distressing complaint.  
*Price, 1s. per Box.*

**Corn Reliever**—Only wants one trial to prove it. It is all that it is represented to be.  
*Price, 1s. 6d. per Bottle.*

**Children's Cooling and Teething Powders**—These powders will be found invaluable for children during Dentition, being a preventive of convulsions, cooling the body, and restoring the healthy action of the bowels. Warranted to contain no preparation of opium.

**Expectorant**—Plenty of local references as to the value of this preparation; a sure cure, easy to take, and quick in action. *Price, 2s. per Bottle.*

# MEAN TIMES OF SUN'S RISING AND SETTING AT THE PRINCIPAL PORTS OF QUEENSLAND FOR THE YEAR 1892.

NOTE.—The times given in this table will answer for all places in the same latitude. The times of Sun's rising and setting are given for the 1st and 15th of each month throughout the year; for intermediate days they may be readily found by interpolation (to the nearest half-minute).

From this Table the time of High Water on any day during 1892, for the Ports mentioned may be found.

RULE.—To or from the time of High Water at Brisbane Bar for the given day (to be found in the Calendar on previous pages) add or subtract the constant (tide interval).

EXAMPLE.—To find high water A.M. and P.M. at Wide Bay Bar on Feb. 12, 1892.—High Water at Brisbane Bar on that day is 9:36 a.m. and 9:55 p.m., subtract the constant for Wide Bay, 1:35 and the result is 8:1 a.m. and 8:20 p.m.

**JANUARY**

{ The Blank Half of this page is intended for Notes, such as the sowing of seeds, the blooming of plants, planting and other garden operations.

As this Calendar is written for the Colony generally, it will be necessary to remember, that instructions cannot possibly be given that are adapted to all latitudes, and for variations in the usual weather; common sense and judgment must be brought to bear upon the directions given, in order that successful results may follow.

**GARDEN—VEGETABLES.**—Always keep unoccupied land well broken up, and allow no weedy growths to impoverish the soil. Summer vegetables—such as some varieties of beans, Chinese long and Fiji runners, also Chinese spinach, sweet corn, cucumber, vegetable marrow, melon and pumpkin—are in season. Only on the Downs, or in cold districts, can other vegetables be grown at this hot season, for during the hot weather it is waste of labour, time, and money to attempt to grow them. Plant sweet potatoes, and get land in readiness for cabbage and cauliflower seeds to be sown in a month or six weeks' time, or sooner in colder districts. Cut herbs for drying.

**FLOWERS.**—The same care and culture generally as for vegetables, and general attention to cleanliness and appearance is the most to be done. Roses and ornamental shrubs may be layered, and roses budded. Seeds of zinnias, balsam, coleus, primula, amaranthus, and cockscomb may be sown. Plants, such as dahlias and chrysanthemums of weakly and straggling growth, need keeping in trim with the knife, and securing with stakes. The dead or decayed leaves should be cut off. Preparations should be made for the Autumn sowing of annuals. Among other plants and shrubs flowering this month are; allamanda, dahlia, Indian hawthorn, honeysuckle, canna (Indian shot), lagerstræmia, and agapanthus.

**FRUIT.**—Little can be done now, but matters of ordinary cultivation. Pine apples and bananas may be planted; fruit trees of all kinds prevented from wasting their energies in the production of useless wood, by pinching out all the young shoots; tropical fruits grown in pots may be planted out; and where mulch is available, it is of great advantage to cover the soil with a *thin coat*, as it prevents excessive evaporation and too great absorption of heat into the soil; and, if not too freely used, is promotive of health, vigour, and productiveness generally to the trees and crop. Straw, grass (free from seed), leaves of all kinds, and straw manure form effective materials for mulching.

**FIELD.**—Destroy weeds before they seed; break up land in preparation for future crops; sow small quantities of Cape barley, rye, and oats, for green fodder in the colder districts; and maize for a late crop in the Central districts; but in the North, sow setaria germanica, teosinte, imphee, and any of the tropical millets. Keep growing crops clean, but do not disturb the ground too deeply during the heat of summer.

**PLANTATION.**—Among the sugar, cleansing and planting operations will still need careful and constant looking after, and may be attended to in the North from time to time, as weather and circumstances permit or render necessary. Arrowroot will now simply need ordinary cultivation, for promoting free growth and keeping down weeds. Coffee will now be setting its berry, and if any means of applying liquid manure are available, it could not be done at a better time. As a matter of course, the plantation of such should be kept always scrupulously clean, and either a broken surface kept to the soil for the purpose of a mulch, or a light mulch (or covering) of some other material be provided.

**BRUSH-HOUSE.**—This should now be gay with coleus, caladiums, begonias, gloxinias, achimenes, and tydeas; and seeds of primula, cineraria, calceolaria, and pansies, and other choice florists' flowers may now be sown in boxes or seed pans, but should be protected by glass or calico in the event of heavy rain. Ferns may be planted and orchids fixed, provided weather be showery or water available. To grow ferns successfully the following conditions are requisite:—

Plenty of moisture during the growing season; perfect drainage; shade not too dense—excluding direct sunshine but freely admitting light—and suitable soil. The best soil is to be found in the bush under trees, or in or around old trees that have been partially destroyed by fire; the leaf mould, decayed vegetable matter, and the burnt wood or charcoal, being admirably adapted for fern culture and growth.

**FEBRUARY**

The Blank Half of this page is intended for Notes, such as the sowing of seeds, the blooming of plants, planting and other garden operations.

**GARDEN—VEGETABLES.**—This should be an active month. Dig roughly all unoccupied beds which have been previously trenched, adding well decomposed manure, or fine bone dust, if other manure not available. Transplant cabbages, Brussels sprouts cauliflower, celery, &c. Sow French beans, Brussels sprouts, carrot, cauliflower, celery, mustard and cress, lettuce, radish, prickly spinach, endive, onion, peas, parsnip and turnip. Mulch the lemon and cucumber holes with a dressing of long stable manure; shape the surface between the holes so as to catch and hold water from thunder showers. In very dry weather, when the cucumber plants appear to suffer, give ten to twenty gallons of water in the evening to each hole, so that they may be thoroughly soaked, applying the water so that it may get into the soil where the roots are. Gather seeds as they ripen. French beans, etc., should be gone over daily, and gathered as soon as they are ready. In the North, now is the best time in the year for sowing sweet corn, but it is yet early for the bulk of the vegetables mentioned above.

**FLOWERS.**—Great activity must prevail now to catch the season for a good floral display with such plants as will not stand the heat. Most English annuals can be grown now and later on, that will not even germinate during the heat of summer. No matter how excellent the seeds of mignonette, sweet pea, larkspur, and many other annuals indigenous to a cool climate may be, they positively refuse to germinate while the soil heat is high, and many people waste time, patience, and means trying to effect the impossible, and blame the seedsman for their own mistake. Rich soil and a well prepared friable seed-bed, and if artificially shaded from sun and heat, so much the better; and then seeds of phlox, pansies, coreopsis, asters, cinerarias, daisies and many other floral gems and favourites, can be grown successfully, on the Downs, especially, in South Queensland fairly, but in North Queensland only partially and then by starting later on. Continue to bud and layer roses, and layer also any choice shrub desirable to propagate. Keep all clean and neat. Withhold water from bulbous plants showing indications of going to rest. Abutilon, clerodendron, cobaea scandens, tecoma jasminoides, and other plants should now be in full bloom.

**FRUIT.**—Continue planting tropical trees from pots; and in the North form plantations of pines and bananas. Plant out strawberries in ground previously prepared by being trenched and thoroughly manured, treading the surface very firmly before planting. Bud all stone fruit. Thin fruit on trees too heavily laden, and prop and secure all branches which are carrying a great weight of fruit. Oranges bearing heavily would be benefited by a top-dressing of some good special manure, or by liquid manure from cowsheds and urinals, or hen manure previously mixed or dissolved in water, diluted to a weak state and applied freely, or during a heavy fall of rain. Superphosphate of lime freely mixed with wood ashes and lime is an excellent dressing to apply to an orangery in wet weather, when the trees are bearing heavily. Collect leaf mould, or waste vegetable matter, for use when planting fruit trees during the approaching winter.

**FIELD.**—Continue to prepare land, ploughing it deeply. Lucerne may be sown in clean, well-ploughed deep soil; drilling is recommended in place of sowing broadcast. Vetches or tares, Cape barley, and sorghum should be sown for green food for stock. If sheltered, and in a warm position, 90 day maize may be sown. Early potatoes may be planted whole. Sulphate of lime or "superphosphate" applied to the soil greatly increases the health and productiveness of potatoes. Keep the land clean, and hill up maize.

**PLANTATION.**—Most of the instructions for last month still hold good, except that planting cane in the South is now risky.

**BUSH-HOUSE.**—In the event of the weather being seasonable, that is frequent showers and sunshine, all plants will be making luxuriant growth. Care should be taken to prevent the droppings from the roof battens doing injury to tender ferns and plants. Attention should also be given to the drainage, for though the fern tribe needs abundant water it must not be stagnant.

**MARCH**

{ The Blank Half of this page is intended for Notes, such as the sowing of seeds, the blooming of plants, planting and other garden operations.

**GARDEN—VEGETABLES.**—If previous instructions have been followed, the seed beds will be full of young plants, and there will be sufficient land well dug and manured ready to receive them. Plant out cabbages, cauliflowers, Brussels sprouts, celery, etc., in favourable weather, that is, just before rain (evening time is best), choosing the largest and finest plants. Keep the beds free from weeds by frequent and deep hoeing. Give asparagus beds a slight dressing of salt, and fork in plenty of decomposed manure. Transplant eschalots. Sow English beans, French beans, beet, carrot, mustard and cress, celery, lettuce, endive, leek, onion, peas, parsnip, parsley, radish, prickly spinach, turnip, cove tronchuda, savoys, and so forth. Divide herbs. Beds deeply trenched and well enriched with manure, should now be made for asparagus or rhubarb, either of which will thrive better, and be more readily and thoroughly prolific if never transplanted.

**FLOWERS.**—Still follow up the plan of utilising the borders during winter and spring with favourite annuals, by enriching the soil with decomposed manure or bone dust, and sowing the seeds or transplanting the young plants in suitable weather. Those who wish to have a good display of pansies, asters and mimulas, should not leave the sowing later than this month. The further north one goes, the more does this apply. Chrysanthemums are now showing signs of buds and where quality is desired, all side shoots and many of the buds should be pinched out. Preparations should now be made also for a good bed of cuttings, by providing a patch of friable soil, and some artificial shade for it, and through the winter, it would render much service for striking cuttings of all choice plants, roses, shrubs, etc. This bed must not be in the vicinity or shade of large trees and should be protected from westerly winds. Caladiums, gloxinias and other bulbs should now be very sparsely watered; the pots can be placed on their sides as the plants or leaves die down. Honeysuckle, many of the rose family, feather palm (cocos plumosa), antigonon, Japan lily, and the yucca (Adam's needle) flower during this month.

**FRUIT.**—Fruit trees or vines that have been sickly or unproductive during the season, should now be seen to, so that they may be manured, syringed, scrubbed, pruned, or grubbed out, as the case may demand. Plant out strawberries; it is advisable to use new ground as a strawberry bed. A spade should never be used in an orchard or orangery, being frequently very destructive to the roots of fruit trees. A fork is the proper implement. All land intended to be planted with fruit trees during the approaching season should be trenched and manured this month if not already done. All stiff and retentive soils should be carefully drained at least six inches deeper than they are trenched, regardless of the inclination of the surface. It should be remembered that the roots of the trees will be under the surface where the water will be retained, unless drainage be provided.

**FIELD.**—Sow lucerne, clover, rye grass, prairie grass, oats, barley, wheat, vetches or tares, and sorghum. Sow main crops of potatoes in all the warmer districts of the Colony. Hoe early potatoes; gather maize as it ripens; cut tobacco leaves as they arrive at maturity. Sow mangolds, Swede turnips, and kohl rabi for winter food. In the North, maize, tobacco, setaria germanica, and teosinte may still be sown.

**PLANTATION.**—In the North great activity in planting will still continue, both with sugar cane and tobacco fields, and where rhea cultivation is thought of, the time for breaking up and preparing land for the cuttings is now at hand.

**BUSH-HOUSE.**—Now is a good time for forming one. Taste, ingenuity and skill are great adjuncts to success with these artificial aids to comfort and luxury. More individuality and less imitation brought to bear on these structures would probably bring to light some new and valuable ideas. The real value of these structures is hardly realised yet, so an effort to make them of some more durable and permanent material would be a step in the right direction. They should never have any living shade over them, nor yet anything growing near them like passion vines or greedy feeding shrubs or trees, or the soil within will be impoverished.

APRIL

The Blank Half of this page is intended for Notes, such as the sowing of seeds, the blooming of plants, planting and other garden operations.

**GARDEN—VEGETABLES.**—Directions for last month still hold good, and in the far North this is the best season for planting potatoes, and growing some of the leading winter vegetables, such as cabbage, lettuce, carrots, radishes, peas and kidney beans. In cooler districts keep down weeds by continual hoeing. Divide and plant out pot herbs, giving water if requisite, until they are established. Plant out cabbages, cauliflowers, etc., in favourable showery weather. Sow English beans, mustard and cress, lettuce, endive, leek, onions, peas, radish, &c., for succession.

**FLOWERS.**—Many annuals should now be up strong enough to handle, and judicious thinning is very important. One or two plants in each place is ample, for they will make as large and as floriferous a display as fifty. Plants not wanted in any patch may be transplanted. Many hardy flowering plants such as petunias and geraniums, and other soft wooded things, may be struck freely now by putting cuttings in where they are to remain. The petunia strikes freely enough thus, but sometimes does not again transplant well, it will be well therefore to bear this in mind. To rose cuttings the same remarks apply. Some varieties—such as Marechal Neil—strike freely, but succumb on being disturbed; the safe way of dealing with them, therefore, is to put the cuttings where they are to remain, of course, into some soil adapted for encouraging root growth. Those wishing to grow good asters or pansies, will find a shady border under a fence, and additional shading of boughs or calico of very great service. Violets want all the cold they can get in Queen's-land to flower freely. The transplanting of flowering shrubs and roses may now be attended to. Chrysanthemums should now be flowering freely, and may be greatly helped by the application of weak liquid manure about twice a week. The climber or creeper known as *quisqualis*, or Rangoon creeper, should now be in full bloom and forming a most effective arbour decoration. Late planted dahlias, and amaryllis, are also in flower.

**FRUIT.**—Where practicable, the transplanting of fruit trees can now be undertaken; and, if done with care, with as much earth as possible round the roots, they will soon emit new roots, and be established in their positions before the final fall of the leaf. This applies especially to evergreen fruit trees, such as lemons, oranges, mangoes, loquats, olives, tamarinds, etc. In transplanting, take care that a sufficiently large hole is dug, to allow of the roots having ample room; if any of the roots have been bruised or broken in the moving let the damaged portions be cleanly cut off with a sharp knife; do not set the transplanted shrub or tree any lower in the new ground than in its original place. For some days it is well to shade it, either by matting on sticks, or any other contrivance that may answer the desired purpose. Water should also be freely applied when the tree is planted, to settle it in its new position, and only at occasional intervals afterwards, when dry weather prevails. Prop up bananas which have heavy bunches of fruit.

**FIELD.**—Sow vetches, lucerne, wheat, barley, oats, mangold and Swede turnips. Gather sorghum and imphoe as they ripen, or the birds will either consume or scatter it. Plough land for future crops. Cut and house tobacco as soon as it arrives at maturity.

**PLANTATION.**—In the South the work consists in getting ready for garnering and manufacturing arrowroot or sugar; in the North, cane planting or setting out tobacco may still proceed if showery weather permits. Coffee planting may be attended to in the North, also, at any time that soil moisture shows it to be advisable.

**BUSH-HOUSE.**—The shading must not be too dense now, or it will be destructive or weakening to plant life and especially to floriferousness. Vacancies may at any time be filled, and taste and attractiveness displayed in furnishing suitable variety of flowers in season. Much needed propagation should now be attended to. For both ferns and orchids a few clumps of peat will be found invaluable as a basis.

**MAY**

The Blank Half of this page is intended for Notes, such as the sowing of seeds, the blooming of plants, planting and other garden operations.

**GARDEN—VEGETABLES.**—Transplant onions, garlic, eschalots, rhubarb, &c. Sew lettuce, endive, leek, onion, peas, radish, mustard and cress, cabbage, turnip, carrot, parsley, and pot herbs. Prepare beds intended for asparagus. In doing so, choose the best soil the garden affords, and the ground must be dug deep and most plentifully manured. Rhubarb may be planted also, in deep-dug, well-manured beds. The onion crop sometimes suffers severely from the ravages of a green grub, which is in some soils in large numbers. Land intended for this crop, should be previously examined for these pests, and if possible receive a dressing of soot, which would be a valuable manure for the onions. In the tropical North, only a few things which mature rapidly—say in a few weeks, or at most two or three months—are worth trying. Eschalots, lettuce, radishes, cabbage, turnips, and carrots, of those above mentioned, and sweet corn, kidney beans, and English or sweet potatoes, being also serviceable.

**FLOWERS.**—Hardy English annuals may still be sown, but the results from those put in now, will not be equal to others sown months earlier. Continue planting roses and flowering shrubs, and attend to all needful pruning, putting in the cuttings in the cutting beds before mentioned, prepared for propagating purposes. Plant all spring flowering bulbs and tubers, dahlias included, and mark the place sufficiently, if in the case of gladioli or dahlias, with a stake suitable for the plants to be tied up to. (In the Southern parts of Queensland dahlia planting had better be left till September). Plant hedges of Dyranta or the African box thorn: the former will do in cuttings, and should be planted thickly, the latter in seed. The poinsettia pulcherrima should now be showing its brilliant bracts; also the hibiscus. Camellias are now in full bud or bursting into bloom.

**FRUIT.**—Transplant fruit trees and evergreen shrubs, do not plant too deep; put fine mould among the roots, making it firm with the foot, and using water copiously afterwards to settle the soil among the roots, unless the soil is wet. Transplant strawberries into leaf mould or well decayed cow dung, giving them abundance of water during their fruiting season. In cold situations, protect tropical fruit trees, and throw a little hay over the pineapple plants, with the same object. Prune fruit trees as they lose their leaves and the wood seems ripe and firm. The trunk and limbs may be painted with a dressing as a preventive against insect pests. A mixture of equal parts of soft soap, sulphur, soot and clay made into a thin paste with water has been recommended.

**FIELD.**—Sow vetches, barley, oats, rye, wheat, also lucerne and other grasses. Cut tobacco, and continue planting it out in the North. Earth up potatoes. Rye as green fodder, is much relished by cattle and horses, and if not allowed to go to seed, will make a good sward for grazing over, being green and succulent during winter and early spring.

**PLANTATION.**—During this month, in the South, cane crushing and arrowroot manufacture will require best attention, and the cane will also come in for its manipulation soon in the North. Coffee will now be ripening and will require to be gathered and treated without delay. Where fresh plantations are demanded, good seed beds should now be made under a dead shade, and the seed sown in nursery beds for transplanting during the moist weather of summer. Plantations of rhea may still be made from cuttings, if the soil moisture is sufficient to warrant it. Cane planting may still be done in the North, also tobacco and maize may still be sown. All new work in clearing and breaking up fresh land should be pushed forward vigorously while the winter lasts.

**BUSH-HOT-SE.**—If this retreat has been seasonably attended to, it will now be gay with such flowering plants as fuchsias, begonias, pansies, and other favorites, and cinerarias and primulas will be ready to do their best presently. All flowering plants are the better for an occasional watering at the roots with liquid manure, not at all strong—weak but often is the rule; much harm is frequently done by using the liquid too strong. Gradually withhold water as the weather becomes colder in order to allow the plants to rest.

**JUNE**

GARDEN, ORCHARD, AND FARM CALENDAR, AND DIARY.  
 The Blank Half of this page is intended for Notes, such as the sowing of seeds, the blooming of plants, planting and other garden operations.

**GARDEN—VEGETABLES.**—No colonial grown cabbage seed should be sown until the latest sowing takes place, as it runs to seed when the plants are ready to heart. The English seed does not run until the second season, and will, therefore, heart perfectly. Transplant horse-radish, eschalots, rhubarb, strawberries, sea-kale, etc. Sow brocoli, Brussels sprouts, cabbage, red cabbage, cauliflower, lettuce, endive, peas, English beans, radish, etc. To grow watercresses, dig a trench as if for celery; turn in abundance of well-decayed manure, at the bottom, sifting some fine soil over it, and dibble the cuttings in at a foot apart, giving the whole a good watering. They must be well watered afterwards about twice a week; and if a leaning shade be erected over them on the sunny side it will be of service. Cabbage, carrots, lettuce, radishes, turnips, sweet corn, and sweet potatoes, are still serviceable for the North.

**FLOWERS.**—The sowing of annuals becomes risky and doubtful now, except a few which are proving very hardy in Queensland. If moisture be plentiful in the soil, however, and the land well enriched to cause a rapid development, that will materially alter the case. As a rule, however, annuals sown now, unless tender ones adapted to the summer growth, are not likely to give satisfaction. Beds and borders should be dug over. Finish the pruning and transplanting of roses and flowering shrubs, and water all newly planted shrubs or trees sufficiently to keep the soil moist, but not more. Too frequent application of water to plants not freely growing, is often death rather than life to the roots. Fill up the cutting bed now with choice cuttings, and water them sufficiently at first to keep the soil moist about them, but not more. Violets should now be at their best; and in cool situations the English primrose may be got to flower, even in the neighbourhood of Brisbane. Dwarf nasturtiums should be flowering freely during this and the two following months. Poinsettia, Dombeya, erythrina are also in flower.

**FRUIT.**—Orange trees which are not in good health should have their trunks and large branches scrubbed with a scrubbing brush, and washed clean before the spring growth commences. The surface soil to the full circuit of the foliage of the tree should have a dressing of stable manure. Apple trees affected with American blight should have the earth removed from the roots near the surface, and they should be painted with castor oil, or strong Gishurst Compound. Some sorts of apple are "blight-proof," and these should have the preference when planting, as far as practicable; and the others should be worked upon stocks which are blight-proof. Transplanting fruit trees and vines should be proceeded with vigorously. Prune fruit trees and vines, and protect bunches of bananas in cold situations, by covering each with a light bag open at the bottom.

**FIELD.**—The arrowroot will fill out rapidly as the cold checks the growth at the top. Sow oats, lucerne, rye grass, vetches, prairie grass, &c. Prepare land in warm situations for sowing with maize, and planting with potatoes next month. Early sown wheat often escapes rust and other ills which affect later crops. It is late for maize and potatoes in the far north, unless done at once.

**PLANTATION.**—The advice given last month is of equal value for this, everywhere in the South, for the weather will still be too cold to allow of planting fresh breadths, and only gathering crops or breaking up new land can yet be done profitably. In the North, the weather is likely to be too dry in most places for successful planting, and as the busy time for cane crushing is commencing, planting may stand over in most cases.

**BUSH-HOUSE.**—Finish making alterations and additions as soon as possible now, and attend to the directions given for the last two months. Fill up vacancies with ferns, lycopods, and orchids; (as regards the latter, Dendrobiums and other epiphytes should not have the roots too closely covered up), and remove everything unsightly, or the effect is easily destroyed by a little negligence and slovenliness. Re-pot ferns. As the weather, particularly at night time, is now getting cold, the westerly side of the house should be well protected by matting, and all watering done in the middle of the day.

**GARDEN—VEGETABLES.**—The seeds for sowing this month are limited to those which either mature quickly or endure heat well. Except on the Downs, cauliflower should not be sown; cabbages, carrots, parsnips, beet, peas, lettuce, radishes, mustard and cress, turnips, onions, leeks, and herbs may still be sown. In well prepared ground, asparagus and rhubarb seed may be sown; the plants from seed, in either case, being much more vigorous and prompt in maturing if not transplanted. In the North, a final sowing of sweet corn should be made this month, and also the last sowing of cabbage, lettuce, radishes, turnips and kidney beans. When sowing seeds after rain, see that the land is in a friable condition; if too wet, it will clog and bind together. The soil should never be walked over or disturbed, by sowing or digging the crops, until it is sufficiently dry to be friable. Plant out onions and eschalots. Three or four days after planting, rake the soil between the rows in dry weather—it will kill thousands of weeds.

**FLOWERS.**—The sowing of English annuals should now be over, the varieties seasonable being such as portulacca, balsams, cockscombs, amaranthus, a few annual phloxes and may be also Indian pinks. Amaryllis, gladiolus, alstroemeria may still be planted. Early sown annuals will now be in bloom, and those wishing to save good seed from them should ruthlessly uproot every indifferent flower, or the strain of seed must degenerate. Finish the planting, pruning, and propagating of roses and shrubs; hedge planting should also be finished. The wigandia is now in flower and many roses should be blooming freely. Other plants on flower are jonquil, narcissus, iris, and similar spring flowering bulbs.

**FRUIT.**—Finish pruning fruit trees and vines and burn any cuttings that appear to be diseased. After pruning, the vine stems may be dressed with a wash of lime, soft soap and sulphur. Plant out fruit trees and vines, and cuttings of grape vines, and such trees as are propagated in that manner. Graft young orange trees. The Seville orange forms the best stock upon which to graft approved sorts. Prepare land hitherto neglected, that all planting may be finished by the end of next month if possible. Eradicate docks, and give a dressing of salt to the vines and fruit trees, lightly forking in well decayed manure where necessary.

**FIELD.**—Finish planting lucerne as early as possible. Sow oats, vetches, etc. Prepare land for potatoes, maize, tobacco, sugar-cane, carrots, mangold wurzell, chicory, etc. Plant potatoes and maize. Take up and prepare arrowroot as the crop matures, and as soon as convenient get in the seed for next season's crop. Plant cuttings of *Jatropha manihot* for tapioca. In the North, plant sweet potatoes, and if moist enough, sow rice, millet, and teosinte.

**PLANTATION.**—As sugar manufacture is now in full swing, soil preparation and planting will be as much as possible deferred; still, where it is at all possible to get out-door work in the soil done, determined effort should be made in such cases to compass it. Timely work is everything in profitable cultivation. Cane planting may be deferred a month or two, yet the plant would mature earlier, and the juice acquire a better density if early planting were done. Tobacco planting in the North should be advanced almost to first crop now, and watchfulness therefore be called for to secure quality, the only way to realize profit thereby. Cleanly and thorough cultivation yields good returns always in plantation, garden, or field.

**BUSH-HOUSE.**—There should be plenty of bloom in a well-tended bush-house now, as begonias, cinerarias, primulas, pansies, fuchsias, violets, and mimulas are in season, and should have frequent waterings with weak liquid manure. Never neglect an opportunity of adding to the fernery, it may be by weeding out something inferior to substitute a better therefor. A well-ordered fernery is a greenery everywhere the eye may chance to alight. This is usually one of the most trying months of the whole year for bush-house plants. The cold westerly winds that commonly prevail now, penetrate into every corner, and the more tender vegetation suffers seriously and often succumbs altogether.

**AUGUST**

The Blank Half of this page is intended for Notes, such as the sowing of seeds, the blooming of plants, planting and other garden operations.

**GARDEN—VEGETABLES.**—Peas sown this month should have a cool aspect. A dressing of salt at this season, at the rate of 7 or 8 lbs to the perch, would be of great advantage to most soils, tending to sweeten the land, retain moisture, destroy insects, and discourage weeds, fungus, and mildew. Sow beet, melon, cucumber, lettuce, okra, parslev, pumpkin, vegetable marrow, radish, rhubarb, round spinach, tomato, tobacco, carrot (large sowing), leek, cabbage, kidney bean, turnip, parsnip, etc. Plant out horseradish, rhubarb roots, herbs, sea-kale, asparagus, Jerusalem artichokes, ginger, etc. Destroy weeds while young; syringe with Gishurst Compound, or with strong soap suds in which a little kerosene has been well mixed, plants which are attacked with aphids; an hour or so afterwards, it is as well to syringe the plants again with plain water. In warm localities South, sow sweet corn, and rosellas, the later in a bed for transplanting.

**FLOWERS.**—Watering in dry weather is now very advantageous, taking care that the water be got to the roots. If no other plan can be devised, a piece of an old broom handle pointed and used to make a funnel to open the soil, will render efficient service, the hole at the top being covered with a stone or something to hide it and to be used again. All transplanting will need to be done with greater care now, as the heat increases, or the tender plants will succumb. See that recently planted roses and shrubs are moist at the roots. Never apply liquid manure to the roots of a plant not healthy or in vigorous growth. Precautions should be taken to protect plants and shrubs in the event of the weather being severe. The *Bignonia venusta* with its orange racemes should now be an attractive object, and were it not so common would be more highly thought of. Several of the dendrobiums (orchids) ought now to be in full bloom. Photinia, also asters, pansies, cosmos, anemones, freesia, hyacinth, and many early sown annuals are also flowering.

**FRUIT.**—Endeavour to finish planting fruit trees, vines, and other plants, as the sun will be gaining power, which will increase the labour and risk. Young orange trees which show too much bloom should have it removed, and receive a little liquid manure to produce foliage. If any of the orange trees are affected with the aphids, they should be well syringed with a solution of Gishurst Compound, or water in which a small quantity of soft soap and sulphur have been dissolved. A small quantity of kerosene in a bucket of warm water has been found very effectual against scale, blight, etc. It should be well mixed, syringed on the trees but kept from the roots. This syringing should be done either before blossoming or after the fruit has set. Air-slacked lime dusted on the trees is sometimes found very useful. Graft china pears, as they break very early. Keep the land clean and the surface open.

**FIELD.**—Keep the crops clean. Plant potatoes, maize, rice, yams, arrowroot, etc. Hoe up slightly potatoes. Sow sorghum, imphee, teosinte, and tobacco. Silkworms will now require constant attention, feeding them frequently with young tender leaves. Earth nuts are a profitable crop in a light friable soil, especially near the sea shore, and in soil having lime in it.

**PLANTATION.**—In the South, planting, except in the case of arrowroot, may be profitably deferred. All land intended for planting should, now, however, be in readiness or nearly so. In the North, sugarcane planting should not longer be deferred, nor should rhea planting be left any later, neither tobacco.

**BUSH-HOUSE.**—In warm and sheltered localities specialities in coleus, caladiums, and crotons, should now be in place for the season, and gloxinias, achi-menes, and tydeas be planted. Fine bone-dust is an excellent invigorator of fern borders, and if mixed with peat, wonderfully assists the finer sorts. Bone-dust and powdered charcoal with a peat base is excellent for all ferns and orchids requiring rooting material. Ferns may be raised by sowing the seeds (spores) on the surface of fine soil in a flower pot or seed pan, which should be kept moist by being occasionally placed in water, this being far preferable to watering on the surface; or better still by sowing the spores on peaty clumps of dead stag or elkhorn ferns.

**SEPTEMBER**

{ The Blank Half of this page is intended for Notes, such as the sowing of seeds, the blooming of plants, planting and other garden operations.

**GARDEN—VEGETABLES.**—Destroy all summer weeds as they make their appearance, and so keep the land thoroughly clean. Take every opportunity to collect manure of all kinds, to be thrown into well puddled tanks, to rot down for use in autumn and winter. During the summer months in this colony, manure should be generally applied in the liquid form. A cask sunk in the ground, with hen manure or cow dung thrown into it and water added, and occasionally stirred, will afford a ready supply. See that crops are not planted too closely to be crowded. Trench vacant land in preparation for future crops, leaving the surface rough, to mellow by exposure. Sow French beans, parsley, beet, capsicum, chili, cardoons, lettuce, egg-plant, okra, sweet corn, Cape gooseberry, radish, round spinach, tomato, tobacco, cucumber, melon, pumpkin, vegetable marrow, carrot, parsnip, etc. Transplant cabbage, eschallots, etc. Plant Jerusalem artichokes, rhubarb roots, sea kale, asparagus, ginger, earth nuts, etc. Sow rosella. Plant sweet potatoes. On the Downs, plant English potatoes.

**FLOWERS.**—Make edgings of alternanthera as the weather gets warmer and moist, and plant out ribbon and carpet designs in flower borders, with coleus and other suitable foliage, and flowering plants. Watch for green fly on rose bushes and elsewhere, and apply Gishurst Compound, or soft soap and water with a syringe to destroy them; be careful that the mixture is not too strong. Syringing with plain water a little time afterwards is recommended. Fill up borders with tender plants for summer ornamentation and display. Attend to cleanliness and neatness everywhere. Dahlia bulbs may now be planted taking care that the colours are properly grouped for effective display. Stakes for their support should be put in at the time of planting. Chrysanthemums should now be divided and planted out. Azaleas should now be doing their best, also pansies. Magnolia fuscata (known as the port wine plant) is in bloom; and among the climbers the wistaria is very noticeable. Gladiolus, amaryllis and lilies, also many roses, camellias, and azaleas are flowering.

**FRUIT.**—In dry weather give recently planted fruit trees sufficient water at the roots at intervals, leaving the surface to be kept damp by a mulching of stable litter. Destroy all caterpillars that infest the vines about this time. Attend promptly to the disbudding of grape vines; removing all suckers and superfluous roots as soon as they appear. Tie up fruiting shoots to the trellises as they advance in growth. Graft apples and pears. The strawberry plants will need attention in the way of weeding and watering.

**FIELD.**—Keep the land clean and loose among growing crops. Plant arrowroot, yams, sweet potatoes, tobacco, etc. Sow imphee, sorghum and maize for green fodder. The sunflower may now be sown. Continue planting and hill *slightly* potatoes, especially in the cooler districts. Finish cotton pruning.

**PLANTATION.**—As the warm weather advances, the planting of tea, coffee, allspice, cinnamon, cocoa, as well as all tropical fruits and shrubs should be attended to, in tropical or sufficiently warm localities. When newly planted and firmed with the foot afterwards, saturate the soil with water, and then apply a coating of mulch to prevent the surface from caking, and the moisture from evaporating. Some light shade to the foliage until the plant takes hold of the soil is also necessary to give the nursed and tender plants a chance. In the South, plant tobacco and sugar cane; in the North, sugar cane, and keep the soil everywhere in as good a state of tilth and openness as possible, to catch all the moisture available in dews or showers.

**BUSH-HOUSE.**—Remove all dead and decaying stems and fronds of ferns, as they furnish a lurking place for mealy bug, thrip and scale which are a scourge of many of the fern family. A sponge moist with a solution of Gishurst Compound applied to fronds thus affected, is at times needful. As the heat increases take care that the roof shading is sufficient. Re-pot large ferns and where necessary replenish the soil with new soil composed of leaf mould or scrub soil with a large proportion of sand.

**OCTOBER**

The Blank Half of this page is intended for Notes, such as the sowing of seeds, the blooming of plants, planting and other garden operations.

**GARDEN—VEGETABLES.**—Keep crops clean, mulch them and give water where necessary, and if watering be attempted, it must be more than a mere sprinkling of the surface, for that does more harm than good. Sow parsley, French beans, lettuce, okra, radish, round spinach, beet, vegetable marrow, melon, carrot, cucumber, tomato, rosella, etc. Sow St. John's Day cabbage, which is the best for summer culture, being early, hardy, of fair quality, and withstanding heat, dry weather and aphids better than any other. Convert all waste vegetables into manure in some form; either to feed pigs, or throw them into the manure tank or cask to rot. In the warmer districts of the colony, only the Chinese spinach, Chinese long or Fiji beans, or Madagascar beans, are worth cultivation, now that heat is in the ascendency. Sweet potatoes may be safely planted everywhere now.

**FLOWERS.**—The main work in the borders now, is watchfulness for weeds and seeds of annuals, and keeping things generally tidy and neat. Only such planting as is seasonable, which consists in transplanting tropical annuals, and biennials, or in propagating the same from cuttings should be attempted. Clip duranta hedges, and plant edgings of alternanthera when moisture permits. Always keep a supply of good compost ready to put about the roots of choice plants when putting them out into the borders, or for sowing choice seeds in. English annuals of all kinds should now be making the garden gay. Phlox, pansies, verbenas, stocks, sweet William, carnation, candy tuft, mignonette, poppies, petunia, lobelia, and many others; also the flaming lily (amaryllis), others of the lily family, and fuchsias. The jacaranda is now a blaze of ethereal beauty, and among climbing plants, the Chinese jessamine (rhynchospermum jasminoides) is prominent both from its scent and appearance. Oleander, bougainvillea, deutzia, gardenia and pomegranate too are in flower. Take up bulbs as soon as the leaves are withered and store them in a dry place where neither ants nor rats can reach them.

**FRUIT.**—Thin out the fruit on China peaches of all kinds, and carefully eradicate the suckers which spring from the root. Attend to disbudding, that is, removing superfluous shoots from fruit trees of all descriptions, as it is of great relief to the tree in every way. Remove all the strong watery shoots (which fill up the inside of the tree), so as to admit sun and air, and leave the whole strength of the plant to mature the crop. Support the branches of the tree as the fruit swells. Examine the orange trees, and if either thrip, smut, cocoon, or fungus, appear on the stems, scrub them as recommended in June. Tie up the vines as they grow, being careful not to injure the foliage (which performs the functions of both lungs and stomach for the plant), and see that the fruit is sufficiently protected from the direct rays of the sun. It is a good plan in order to secure fine fruit, to thin out with a pair of sharp pointed scissors some of the grapes in overcrowded bunches. Sulphur the vines on the first appearance of oidium; do this in the early morning while the dew is on the vines. Plant bananas and pine apples. Trench and drain the land intended for planting fruit trees in the winter; and if well cultivated, one crop taken from it would improve its texture.

**FIELD.**—Clean and earth up growing crops. Plant yams, earth nuts, ginger, and sweet potatoes. Sow sorghum, milpee, maize, setaria germanica, and in the warmer districts, teosinte.

**PLANTATION.**—As showery weather permits, attend to the planting of coffee, arrowroot, tapioca, sugarcane, and tobacco. Let the cultivation be liberal, if good returns are to be looked for; but for it to be truly liberal, it needs to be done intelligently as much as freely.

**BUSH-HOUSE.**—These structures in the North could now be made serviceable for growing salads, French beans, and many choice vegetables as luxuries for the table. That will come to be one of their uses in tropical situations yet. Their use as a luxurious and ornamental retreat for producing many of the beauties of nature is already known and somewhat appreciated; but there is great scope remaining for the improving and inventive powers and taste of man to work, in greatly enriching them in every way, both as to their contents and designs.

**NOVEMBER**

The Blank Half of this page is intended for Notes, such as the sowing of seeds, the blooming of plants, planting and other garden operations.

**GARDEN—VEGETABLES.**—Some of the most profitable vegetables to grow anywhere in Queensland during the summer months are the Chinese long runner beans, the Fiji bean, and the Chinese Spinach. The Madagascar bean grows well during the summer. At this season the beds should have the ridges laid across the hills in sloping ground, so as to catch the showers. Thin cucumber and melon beds where overcrowded, and loosen the soil if it is bound. Fasten down the shoots with wooden pegs so as to cover the ground evenly. Sow French beans, melon, cucumber, lettuce, okra, rosella, pumpkins, and sweet corn. Sweet potatoes may be grown anywhere this month.

**FLOWERS.**—Little can be done during the summer months among flowers, except the ordinary cleaning of the beds. Roses may be budded now, or layered if increase is required. Angelonia, coleus, and summer growing herbaceous plants may be divided at the roots, or struck from cuttings either in the open borders with occasional waterings, or in shady beds made for the purpose. Some of the summer growing annuals, may be sown or transplanted, and double petunias, if particularly choice, may be layered now or during summer for transplanting in winter. Petunias do not bear removing kindly in this colony while hot weather prevails. Pansies or mimulus growing in shade, will flower for awhile yet, if freely watered. Among flower trees and shrubs now blooming are; the magnolia, erythrina vespertilio (cork tree), gardenia, stephanotis, hoya and lasianra.

**FRUIT.**—Thin early peaches as soon as the fruit is fit for cooking. Mulch the trees a considerable distance round the stem. Plant all kinds of tropical fruit trees from pots, such as mangoes or jack-fruit. Clean out all superfluous shoots from fruit trees generally, in order to throw the whole strength of the plant into the crop; not injuring or removing any of the foliage unnecessarily. Remove suckers from grape vines, stop straggling branches, and rub off weak ill-placed shoots. If vigorous old Isabella vines have the ripest of the present season's rods pruned during this and next month, they will give a second crop of fruit. The cuttings also, if planted, will form strong roots before the planting season. The vines should be carefully watched for oidium or other disease, and if there are any signs of appearance, sulphur must be freely used. Apricots and China peaches should be budded. Plant banana and pine apple suckers. Trench land intended for planting next season, to give it the sweetening influence of the summer's sun. Where pineapples are largely grown, it will pay to thin out the suckers early this month, as it not only causes the summer stock of fruit to be larger, but the young suckers which appeared on the pruned shoots will produce winter pineapples, which sell at a high price. The most convenient implement for thinning out, is the large strong-handled South Sea Island knife kept sharp at both sides of the point, and used with a downward thrust.

**FIELD.**—Keep the land clean with a horse hoe or scarifier. Stop tobacco plants as required, to direct the sap into the leaves intended for the crop, and remove caterpillars. In making oaten hay, cut the crop when well in ear, but before the seed is near mature; the whole plant is then in the best condition. In the North, millet and teosinte may be sown freely now for fodder purposes.

**PLANTATION.**—Much cane-planting is now generally done in the North, after the rush at the crushing is over. Early sown rice is now ready for harvesting, and will soon be growing strong for the second crop. Young coffee plants may still be planted out, if means for shading and careful watering be attended to. Two or three leafy boughs stuck around the young plants form the best shade for them.

**BUSH-HOUSE.**—Ferns will now be making vigorous growth and will require frequent watering. If mildew makes its appearance sulphur should be dusted on the leaves. Attention should be given to the shading as the sun has great power this month. This, or rather the previous month, is the best time for starting a fernery or replenishing one already started.

**DECEMBER**

The Blank Half of this page is intended for Notes, such as the sowing of seeds, the blooming of plants, planting and other garden operations.

**GARDEN—VEGETABLES.**—Seeds sown during the summer months would do better if protected from the direct rays of the sun by some light cover, a foot or two above the ground. Thin calico, or light open brushwood, not too dense, would be suitable. If the seed beds were well watered, *so as to thoroughly soak the soil*, a few hours before sowing the seed, and the seed were covered by sifting over it some stable litter, there would not be so many failures, even in summer. Sow French beans, lettuce, okra, radish, sweet corn, Chinese runner beans, and Chinese spinach.

**FLOWERS.**—Much of the advice given last month serves equally for this. Judicious watering is a very useful thing, but much of the watering done is more injurious than helpful, as it never by any chance penetrates the soil to the roots, and therefore does little good; indeed, in many cases it only cakes the surface soil. If people could only be educated to contrive in some way to get the water down to the roots instead of squandering it upon the surface, better results would be seen. A flower-pot, a jam or other tin, with a hole in it, sunk in the soil up to the rim, with a layer of stones or sticks underneath to let the water run in quickly, would be a simple contrivance for effectual watering. The poinciana regia, bauhinia hookeri or native ebony, hydrangea, frangipanni are now in bloom, also fuchsias, gloxinias, agapanthus, and lagerstroemia.

**FRUIT.**—Thinning heavily laden trees and dis-budding, or finger-and-thumb pruning, is the principal work needed among fruit trees now. Straw under peach trees will protect the falling fruit from bruising. Straggling wood shoots should be stopped, to keep the trees in form, and prevent the weaker branches being robbed of their share of nourishment. On the slightest appearance of oidium among the vines or American blight among the apples, dress them as previously directed. Those who object to the use of sulphur and lime in their dry state, may boil one pound of sulphur and one pound of lime in a gallon of water for half-an-hour; one pint of this, when strained, may be mixed with ten gallons of water, and applied to the affected vines with a syringe.

**FIELD.**—Keep crops clean. Dig potatoes as soon as ripe, as they will not keep in the soil; and have them collected as they are dug, or the sun will cause them to rot. Harvest wheat, oats, and barley; if left too late the grain wastes in gathering. Finish haymaking, taking care that the hay is not over-dried, or its feeding properties are half destroyed. Sow maize, setaria germanica, millet, sorghum; in the North, teosinte and sweet potatoes may still be planted.

**PLANTATION.**—Cane planting may be attended to anywhere now. Coffee will need to be constantly watched, and failing plants replaced timely, to give the plot an equal start together. A hole a foot deep and the same in diameter on the uphill side of the plant, and filled with stones to the surface, is an excellent device for watering either coffee plants on a plantation, or many things besides, and were it done, a little water would achieve wonders in a dry time.

**BUSH-HOUSE.**—Much of the attractiveness of a structure of this kind depends upon its tasteful ornamentation with rockeries, hanging baskets, and arrangements for all kinds of epiphytal growths. Gnarled or branched sticks are of great service in carrying stag-horn, elk-horn, and bird's-nest ferns, also for many varieties of orchids. Stone work built up grotesquely to form shady nooks and corners would be likewise of great service for growing many things unfitted for more exposed positions. And, as said before, the bush-house in the North may be coaxed into useful service, after the manner of conservatories at home, only reversing the order by creating a lower temperature than prevails outside. As it is not an easy matter to thoroughly water hanging baskets, it is recommended that every bush-house should be provided with a water trough or box in which the basket can be plunged in order to get a thorough soaking. A zinc-lined case, say, about two feet long by eighteen inches wide and deep, will be found to admirably answer the purpose.

## QUEENSLAND.

THE Colony of Queensland, formerly known as the Moreton Bay District—comprises the whole of the North-Eastern portion of the Continent of Australia; its boundaries being—on the North the Gulf of Carpentaria and Torres Strait; on the East the Pacific Ocean; on the West the Northern Territory of South Australia—the dividing line being the 141st meridian of longitude from the 29th to the 26th parallel, and thence the 138th meridian—and on the South the Colony of New South Wales. Its estimated area—exclusive of the islands contiguous to the coast, which, however, belong to Queensland—is about 669,520 square miles, or 428,492,800 acres, being about twelve times the size of England and Wales. Its extreme length from N. to S. is 1,300 miles its breadth 800 miles, the coast line being about 2,500 miles. It was discovered by Captain Cook in May, 1770; first settled in 1824; and erected into an independent Colony on December 10th, 1859.

## POLICE MAGISTRATES AND CLERKS OF PETTY SESSIONS.

In several cases both offices are held by the same individual; this will be found indicated by the initial letters C.P.S. (Clerk of Petty Sessions), following those of P.M. (Police Magistrate). The dagger (†) signifies that the Officer of Police is the Acting Clerk of Petty Sessions. Owing to the frequent changes the names are not given.

## REGISTRATION OF BIRTHS, MARRIAGES, AND DEATHS.

Every Birth must be registered within sixty days, and every death within thirty days next thereafter respectively; any neglect of this regulation renders the parties whose duty it is to register, liable to a fine not exceeding £10. If sixty days have elapsed from the date of birth, the law requires the parent, or other person making the application to register such birth, to pay a fee of two shillings and sixpence, and to make a solemn declaration of the facts before a Justice of the Peace, prior to the registration. The father or mother ought to sign as informant. If unable to write, let a mark be made. No birth can be registered after three years have elapsed from the date thereof; but a record will be made in the Registrar-General's Office if reliable information be supplied by the parents respecting such a birth.

Every Minister who has celebrated a marriage, must within one month thereafter, transmit (in accordance with the Act 28 Victoria No. 15) the original certificate to the Registrar of the District in which the marriage was celebrated, and every Minister who fails to transmit the certificate to the District Registrar, is liable to a fine of NOT LESS THAN £10 and not exceeding £50. Marriages must be solemnised between the hours of 8 a.m. and 8 p.m. Persons under age must produce the written authority of parents or guardians, signed by them in the presence of a Justice of the Peace, Registered Minister, or District Registrar, or the marriage cannot take place.

In every case of Burial, the Minister or person officiating at any religious service at such burial, ought to receive from the undertaker or person having charge of the funeral, a certificate from the District Registrar, certifying the registration of the death, unless in the case of inquest, when a certificate from the Coroner or Magistrate holding the inquest, will be sufficient; and if any dead body shall be buried without such certificate, the person who may bury the same, or perform any funeral or religious service for the burial, or who shall in any way dispose of the body, shall forthwith give notice of the facts to the District Registrar. Undertakers are bound, under a penalty not exceeding £10, to lodge with the District Registrar, IMMEDIATELY after the burial, a Certificate of such burial signed by themselves and COUNTERSIGNED BY TWO WITNESSES.

APPOINTMENT TO

HIS EXCELLENCY THE  
GOVERNOR.

Correspondence intended to be sent by the San Francisco, French, and German Lines must be specially endorsed. All Mail matter posted without special superscription, and obviously intended to go by the first steamer, will be so sent, without regard to the route or line of packets employed.

Correspondence to the United Kingdom from all places south of Mackay is sent by way of Melbourne.

COMMERCIAL PAPERS comprise:—All papers or documents written or drawn wholly or partly by hand, except letters or communication in the nature of letters, or other papers or documents having the character of an actual and personal correspondence, documents of legal procedure, deeds drawn up by public functionaries, copies of or extracts from deeds under private seal (and whether written or printed on stamped or unstamped paper), way-bills, bills of lading, invoices, and other documents of a mercantile character, documents of insurance and other public companies, all kinds of manuscript music, the manuscript of books and other literary works, and other papers of a similar description.

PRINTED PAPERS include:—Periodical works, books (stitched or bound), pamphlets, sheets of music (printed), visiting cards, address cards, proofs of printing (with or without manuscript relating thereto), engravings, photographs, pictures, drawings, papers impressed for the use of the blind, or cardboard drawing models stamped in relief (except for Russia and Sweden), plans, maps, catalogues, prospectuses, announcements, and notices of various kinds, whether printed, engraved, lithographed, or autographed, and in general all impressions or copies obtained upon paper, parchment, or cardboard by means of printing, lithography, autography, or any other mechanical process easy to recognise, except the copying press and the type-writer, and anything usually attached or appurtenant to any of the beforementioned articles in the way of binding, mounting, or otherwise, and anything convenient for their safe transmission by post which shall be contained in the same packet; also printed, engraved, or lithographed circulars, notwithstanding that such circulars may be letters or communications in the nature of a letter. Stamps for prepayment, whether obliterated or not, and all printed articles constituting the sign of a monetary value, are, however excluded from transmission by Book Post to countries of the Postal Union.

DIMENSIONS.—The limits of size for packets of Commercial Papers or Printed Papers are 18 inches in length by 1 foot in width or depth. The limit of weight is 4lbs.

MINIMUM RATES.—The two classes (Commercial Papers and Printed Papers) are subject to the same rates of postage, except that the minimum charge for a packet of Commercial Papers, however small the weight, is 2½d. in every case. If there be any mixture of the two classes in the same packet, the whole packet is treated as Commercial Papers.

PATTERNS AND SAMPLES.—The Pattern and Sample Post to Foreign Countries is restricted to *bona fide* trade patterns or samples of merchandise. Packets containing goods for sale, or in execution of an order (however small the quantity), or any articles from one private individual to another which are not actually patterns or samples, cannot be forwarded by Pattern Post.

No article liable to Customs Duties can be sent as a sample or pattern.

DIMENSIONS.

No packet of newspapers, printed matter, or commercial papers must exceed 18 inches in length or 1 foot in width or depth.

Patterns and sample packets must not exceed 8 inches in length, 4 inches in width, 2 inches in depth; except those for Belgium, France, Greece, Italy, Japan, Luxemburg, Portugal, Switzerland, the Argentine Republic, the United Kingdom, and the United States—the limits for which are 1 foot in length, 8 inches in width, 4 inches in depth, and 12ozs. in weight.

GENERAL RULES.

Postage stamps are of the following denominations:— $\frac{1}{4}$ d., 1d., 2d., 2 $\frac{1}{2}$ d., 4d., 6d., 1s., and 5s.

Upon receipt of any letter or packet supposed to contain articles liable to Customs duty, a postmaster should advise the person addressed, and the nearest Customs Officer of the fact, and also intimate to the former that he must satisfy the Customs Officer as to the nature of the supposed dutiable articles, and pay any Customs Charges before delivery can be made to him.

If there be no invoice or means of satisfying the Customs Officer except by examination of the contents, the person to whom it is addressed should authorize the postmaster in writing to deliver it to the Customs Officer for that purpose; but should this be objected to, the letter or packet must then be sent to the Dead Letter Office.

The transmission by post of gold, silver, precious stones, jewellery, &c., is prohibited in nearly all the countries comprised within the Postal Union except Great Britain.

Wedding Cake cannot be forwarded, unless it is secured in metal covering, or in such a way that it cannot affect the contents of the mail bag, or attract vermin. Liquid medicines—not dangerous compounds—may be sent within the colony at letter rate, if packed in such manner as not to cause injury to other mail matter.

Books, packets, periodicals registered as newspapers, and parcels of newspapers posted in New South Wales and Victoria, and intended for delivery in Queensland, not dealt with in accordance with the postal regulations of Queensland are surcharged the amount of deficient postage.

A postmaster may refuse to receive or transmit by post, any letter, card, packet or newspaper exceeding the prescribed weight; or of inconvenient form or dimensions, or containing, or reasonably suspected to contain any article likely to injure the other contents of the mail bags or any person.

LETTERS.

**TOWN LETTERS.**—The town rate of postage—1d. per  $\frac{1}{2}$  oz., which includes, in addition to the City proper (Brisbane), all places within a radius of eight miles from the General Post Office, extends to the following Post and Receiving Offices, viz:—Albion, Ashgrove, Belmont, Boggo, Breakfast Creek, Brookfield, Bulimba, Coorparoo, Cooper's Plains (railway station), Downfall Creek, Dumellan, Eagle Junction, Eagle Farm, Enoggera, Fairfield, Figtree Pocket, Filleigh, Fortitude Valley, Glen Albion, Hawthorne, Hemmant, Indooroopilly, Jubilee, Kelvin Grove, Kenmore, Lutwyche, Milton, Morning-side, Mount Coot-tha, Mount Gravatt, Nundah, Nudgee, Oxley, Petrie Terrace, Racecourse, Red Hill, Rocky Waterholes, Sherwood, South Brisbane, South Coast Junction, Stafford, Stanley Bridge, Tingalpa, Taringa, Toombul, Toowoong, Yeronga, Zillmere, also to St. Helena and Dunwich.

The town rate of postage at Ipswich applies to all places within a radius of four miles from the Post Office, to include the following Townships and Post and Receiving Offices, viz:—Karrabin, Booval, Bundamba, Brassall, Tivoli, Lower Tivoli, Silkstone, Blackstone, Little Ipswich, Newtown, Churchill and Yamahato.

At Rockhampton this rate applies to letters for all parts of the Borough of North Rockhampton and Lake's Creek.

At Toowoomba this rate applies to correspondence to and from the Post Office at Toowoomba and the Shire of Middle Ridge.

At Maryborough it includes a radius of three miles from the Post Office, and in addition the Post Offices at Glanville and Tinana.

At Townsville this rate applies to Mundingburrah.

At Bundaberg it applies to North, South, and East Bundaberg.

**LATE FEE.**—The late fee on letters is—Inland and Intercolonial, 2d.; Foreign, 6d.; to be paid by affixing to the letter the necessary postage stamps. Letters can be posted on board the steamers up to the time of sailing. If for places outside the colony, they must bear the late fee postage.

**REGISTRATION.**—Letters, packets, and newspapers can be registered by affixing a threepenny stamp in addition to the proper postage. The letter or packet must be given to the post official, who will give a receipt for it. The adoption of registration is strongly urged in all cases where money, notes, or packets of value are sent, as the precautions taken with registered letters, almost ensure their safe delivery.

When a postmaster has cause to believe that a letter or packet, not registered, contains coin, jewellery, gems, watches, or any other valuable enclosure of the like kind, he may register it and charge it with the ordinary registration fee.

**TOWN DELIVERIES.**—In Brisbane (including Fortitude Valley) there are three daily—8.30 a.m., 2 p.m., and in the business parts of the city, and Stanley street and Melbourne street, South Brisbane, at 4.30 p.m.; on Saturday at 8.30 a.m. and at 12 noon. In South Brisbane two deliveries daily—9 a.m. and 2 p.m.; on Saturday, 9 a.m. and noon. ### PRIVATE LETTER BOXES.

These may be obtained on the following terms:—

Without lock, £1 10s. per annum, payable in advance, from the first day of the Quarter in which the box is obtained, until the end of December following, and thereafter yearly.

With lock, £1 10s. per annum, payable in advance, from the first day of the Quarter in which the box is obtained until the end of December following, and thereafter, yearly. Two keys will be furnished with each box without extra charge. *Keys must not be obtained elsewhere than from the Department.* In the event of a key being lost, the remaining keys must be returned and information at once be given to the local Postmaster, when a new lock will be fitted in the box, and new keys supplied, for which 7s. 6d. will be charged. It must be fully understood that the boxes mentioned are only let upon the above conditions, and that upon any breach thereof, the Department can at once withdraw permission for the use of the box. On discontinuance of a Lock Box, the keys must be returned by the holder, as they are the property of the Government. Lock Boxes are not free to anyone.

### PRIVATE BAGS.

Settlers upon Mail routes requiring the accommodation of a private bag, can obtain the same from either of the two Post Offices next to them on payment (in advance) to the Postmaster who makes up the bag, a sum at the rate of £2 2s. per annum, from the first day of the Quarter in which the bag is first made up, to the end of December following; and thereafter £2 2s. yearly, subject to the following regulations:—

(1) Should the fee remain unpaid beyond one month, the bag to be discontinued. (2) The bag must be of leather, and provided at the cost of the person requiring it. (3) The Postmaster will close, and seal it securely before despatching it; and it must be returned in like manner, sealed with some seal, the impression of which is known by the Postmaster. (4) The bag may contain letters for all persons who give *written authority* to the Postmaster to enclose them. The person paying for the private bags, is responsible for the postage of all unpaid letters, and for the receipts of all those which may be registered.

### NEWSPAPERS.

Under the new "Postal Act" (Jan. 1, 1892), each Newspaper (not exceeding 10oz., Town, Inland and Intercolonial) is charged One Halfpenny; Foreign One Penny. Newspapers printed and published in Queensland, when posted for Town, Inland, or Intercolonial, in bulk parcels not exceeding 14lbs in weight, are charged for every 1lb. or fraction of a lb., One Penny.

A Publication is deemed a Newspaper when consisting wholly or in substantial part of political or other news or of articles relating thereto or to other current topics with or without advertisements, whether printed for sale or gratuitous distribution—provided: (1) It is printed and published in Queensland; (2) It has the full title and date of publication printed at the top of the first page and the whole or part of the title and the date of publication printed at the top of every subsequent page and of every table of contents and index; (3) It is published in parts or numbers at intervals not exceeding one month.

A supplement to a newspaper is defined as follows:—A copy of the daily or weekly issue of the parliamentary debates published by the authority of Parliament, or any publication consisting wholly or in substantial part of matter like that of a newspaper, or of advertisements printed on a sheet or sheets or consisting wholly or in part of engraving, print, or lithograph illustrative of articles in the newspaper, or of literary matter (the letter-press of the same being printed in Queensland from type set up in Queensland), or from stereotype plates made therefrom and having the printer's name thereon, and, further, having the title and date of publication of the newspaper printed at the top of every page of the supplement or at the top of every sheet or side on which the engraving, print, or lithograph appears.

Every newspaper shall be sent without a cover, or in a cover open at both ends. There shall not be in or upon the newspaper or cover any communicative character, figure, letter or number except the words "Newspaper only" or a mark to indicate a report, article, or paragraph therein; the printed title of the newspaper, the printed names, occupations and places of business of the printer, publisher and vendor thereof, and the name, occupation and address of the person to whom it is sent, and the name of the person sending the newspaper; nor shall anything be enclosed in or with or accompany the newspaper or cover. Every newspaper shall be folded or covered in such a manner that the title of it may be recognised.

All unregistered or irregularly posted newspapers and all newspapers, having any matter which is not a supplement accompanying them, shall be treated as packets.

Newspapers must be posted an hour before the time appointed for closing mails.

# BOOKS.

**Rate: Inland and Intercolonial, for every 4oz. or fraction thereof, 1d.**

The following and similar articles may be forwarded at Book rates: Printed books, pamphlets, magazines, and reviews, and all wholly printed publications that do not come within the definition of newspapers, printed music, photographs, &c., bound and published in book form. All other articles not coming within the foregoing definition, or within that of newspapers, to be treated as packets. Parcels of Books must not exceed 3lbs. in weight, but a single book will be allowed not exceeding 7lbs. No book to exceed two feet in length, or one foot in breadth or depth, or to be of inconvenient form.

**PREPARATION FOR POST.**—Packets and books may be sent through the post—without a cover, but not fastened against inspection with anything adhesive, such as gum, postage stamp, sealing wax, &c.; or in a cover open at one end or side, or with the flap left unsealed or fastened with a binder or in such manner as will permit of opening for examination and re-closure. If the cover be slit, the opening must be sufficient to admit of the contents being easily withdrawn for examination. Postmasters will, however, satisfy themselves as to the contents without withdrawing them, if possible. The cover may bear the sender's name and address, and with the exception of packets of printed books made up in such a manner as to plainly show contents, the description of contents must be endorsed thereon. Packets and books may be tied with string or tape, but officers of the department may cut the string or tape to examine the contents, but if they do so, must tie the packet up again. Samples of seeds, drugs, &c., which cannot be sent as open packets, may be enclosed in bags or boxes, fastened so as to be easily undone and re-fastened.

**NOTE.**—If the above conditions are not complied with, the packets will be regarded as insufficiently paid letters, and charged accordingly.

# PACKETS.

**Rate: Inland and Intercolonial, for every 2oz. or under, 1d.; foreign, 2d.**

**Weight.**—For places within Queensland: Packets, patterns, &c., not to exceed 3lbs.; Intercolonial 16oz.; books not to exceed 3lbs.

**DIMENSIONS.**—No packet to exceed two feet in length or one foot in breadth or depth; or to be of inconvenient form. (The rule regarding dimensions of a packet not to apply to Packets "On Her Majesty's Service.")

**ARTICLES THAT MAY BE SENT AS PACKETS.**—Affidavits, Banker's packets containing bank notes (if so marked and registered), cheques, cheque-books, drafts, pass-books, or orders sent by or to any bank, returns or other periodical statements sent from one bank to another. Bank notes sent from one bank to another may be wholly enclosed in a strong cover, endorsement to be signed by officer of the bank. Bills of lading and ships' manifests. Briefs. Cards in open covers (other than birthday, Christmas, or New Year Cards), either plain or bearing printed matter, or pictures, or both. The name only of the addressee may be written on the face of such cards. CARDS—Birthday, Christmas, or New Year cards in open covers, may have written on them "complimentary" or such like remarks, together with the names and addresses of the senders, and of the persons for whom the cards are intended, also the date of sending. (For example: "To John Smith, with best wishes from Mary Smith, Christmas, 189.") But cards having messages or other communications written on them, such as "Hoping to see you shortly," "Be sure to write soon," will be liable to letter rate of postage. Cases of instruction for counsel's opinion. Catalogues, printed (prices in figures may be written). Certificates. Circulars, i.e., letters wholly printed, engraved, lithographed, chromographed, or produced by other mechanical process, intended for transmission in identical terms to several persons (the name of the addressee may, however, be added in writing). Commercial papers, under which are comprised all papers or documents written or drawn wholly or partly by hand, except letters or communications of the nature of letters, other papers or documents having the character of an actual and personal correspondence, and documents constituting the sign of monetary value, such as acceptances, bills of exchange, promissory notes, &c. Deeds or copies thereof. Depositions. Drawings. Engravings. Essays and papers of like nature. Envelopes. Examination papers or exercises, with or without corrections, or remarks, or directions regarding them. Insurance documents, not being of the nature of a letter. Invoices or bills of parcels may have the shipping receipt attached (an invoice may be receipted and may advise when or how goods are forwarded, but may contain no other written matter). Legal documents, not being in the nature of a letter. Manuscript of books. Manuscript for printing or publication, forms filled up in writing with information for printing or publication. Maps. Medical diplomas. Mineral samples not to exceed 12ozs. Music (sheet, printed, or written). Notices of meetings, printed, engraved, lithographed, or produced by other mechanical process (names and dates only to be inscribed in writing). Paintings. Paper. Parchments or vellum. Parliamentary papers. Pass-books or cards connected with any society. Patterns (manufacturers' or trade marks and prices may accompany them). Paysheets. Photographs (not on glass except in cases of leather or other strong material). Photographic Albums. Pictures. Placards. Plans. Pleuro-pneumonia virus, packed in wooden boxes, and the empty boxes when returned to the Chief Inspector of Stock. Policies of Insurance. Powers of Attorney. Prices current, printed (prices of articles included therein may be filled in in writing). Printed matter. Printers' proofs. Prints. Process or pleadings in any Court. Prospectuses, printed. Recognizances. Returns, vouchers, or periodical statements, on Government service, if so endorsed on the cover. Samples (manufacturers' or trade mark and price may accompany them). Scrip. Seeds. Specifications. Specimens of natural history (not living), within the colony only. Stock sheets. Title deeds may be posted by the Registrar of Titles in fully-enclosed canvas-bound covers, endorsed "Title Deeds," and signed by the Registrar of Titles. Valentines, printed. Way-bills.

None of the articles mentioned in above list will be forwarded as packets beyond the limits of the colony, if the law or postal regulations of the colony or country to which they may be addressed prohibit their reception into such colony or country as Packets. If any articles which can only be sent by post if paid as letters, are posted bearing the Packet rate of postage, they will be treated as insufficiently paid letters. Officers of the Post Office may examine the contents of any Packet for the purpose of ascertaining whether they are in accordance with these Regulations, but such officers must securely re-fasten any packet so opened.

*Articles not allowed to be sent as Packets.*—Articles, of merchandise, or having a value of their own Gold or silver money, jewels, or precious articles, or anything liable to Customs duty, addressed to any country in the Postal Union, except the United Kingdom, to which latter place such articles may be forwarded if paid letter rate and registered. Glass, and perishable substances, such as game, fish, flesh, fruits, vegetables, &c. Anything liable to injure the person of any officer of the Post Office or the contents of a mail. Photographs on glass, when not in strong cases. Anything sealed or fastened against inspection. Anything in the nature of a letter. Packets bearing on the outside or containing any profane, obscene, or libellous address, signature, picture, or thing. Packets posted in fraud or violation of the Postal or Customs law.

Packets or books posted unstamped, if addressed to places within the colony, are forwarded to their destination, and charged double the deficient postage on delivery; if addressed beyond the colony they are sent to the Dead Letter Office and returned to the senders.

Packets or books insufficiently stamped, addressed to places within the colony, are charged double the deficient postage on delivery; if for the United Kingdom they are charged on delivery with deficient postage and a fine of 4d.; if for the Australasian Colonies, charged deficient postage and a fine of One Penny; in nearly all other cases they are returned to the sender through the Dead Letter Office.\*

### PARCELS.

It was expected that early in 1892 the Parcels Post would be in operation to most of the Post Offices throughout Queensland.

### MONEY ORDERS.

MONEY ORDERS may be obtained between the hours of 10 a.m. and 4 p.m. (except on Saturdays when the offices close at 12 o'clock noon), and made payable in any of the undermentioned places on payment of the following charges:—

QUEENSLAND.—For any sum not exceeding £2, threepence; above £2, but not exceeding £5, sixpence; above £5, but not exceeding £7, ninepence; above £7, but not exceeding £10, one shilling.

INTERCOLONIAL.—Australian Colonies, Tasmania and New Zealand—For any sum not exceeding £5, one shilling; exceeding £5, and not exceeding £10, two shillings.

UNITED KINGDOM, JAPAN (YOKOHAMA), STRAITS SETTLEMENTS, CAPE OF GOOD HOPE, INDIA, CEYLON, CANADA, UNITED STATES OF AMERICA, CHINA—For any sum not exceeding £2, one shilling; exceeding £2 and not exceeding £5, two shillings and sixpence; exceeding £5 and not exceeding £7, three shillings and sixpence; exceeding £7 and not exceeding £10, five shillings.

THE GERMAN EMPIRE, FRANCE, SWITZERLAND, BELGIUM, DENMARK, DANISH WEST INDIES,

DUTCH EAST INDIES, EGYPT, HOLLAND, ICELAND, ITALY, NORWAY, PORTUGAL, SWEDEN, ALGERIA, AUSTRIA, BULGARIA, HUNGARY, ORANGE FREE STATE, CHILI, ROMANIA, and several Foreign cities and towns, and the following BRITISH COLONIES and POSSESSIONS: Bermuda, Cyprus, Gibraltar, Falkland Islands, Malta, Newfoundland, North Borneo, Sarawak, *South and West Africa*—Gambia, Gold Coast, Lagos, Mauritius, Natal, St. Helena, Seychelles, Sierra Leone; *West Indies*—Antigua, Bahamas, Barbadoes, British Guiana, Dominica, Grenada, Honduras, (British), Jamaica, Montserrat, Nevis, St. Kitts, St. Lucia, St. Vincent, Tobago, Trinidad, Turk's Island—For sums not exceeding £2, one shilling; for sums above £2 but not exceeding £5, two shillings and sixpence; for sums above £5 but not exceeding £7, three shillings and sixpence; for sums above £7 but not exceeding £10, five shillings.

NOTE.—Orders on the German Empire and Foreign Countries and British Colonies enumerated above will be re-issued by the London Office, and forwarded to the addressee of the payee, less the following charges, viz:—For any sum not exceeding £2, threepence; for any sum above £2 but not exceeding £5, sixpence; for any sum above £5, but not exceeding £7, ninepence; for any sum above £7, but not exceeding £10, one shilling. The full address of the person to whom the order is to be paid must be given, so that there may be no difficulty in delivering.

No order will be issued for more than £20. Payment of a Money Order must be obtained before the end of the twelfth calendar month after that in which it was issued.

Money Orders may be transmitted by telegraph between all Money Order Offices (being also Telegraph Offices) in Queensland, and between Queensland and any Money Order Office in New South Wales, Victoria, South Australia, and Tasmania, having telegraphic communication, on payment of the usual telegraphic charge for a message, in addition to the Money Order Commission. If required, and within the colony, the Order will be advised by "Urgent" telegram, double rate being charged. A list of the Money Order Offices in Queensland will be found in the Postal Gazetteer on page 87.

NOTE.—In telegraphing money, it is necessary for the sender to advise by telegraph the person to whom the money is sent, as the Department does not do it; and as the Paying Officer will retain the message, a copy of it should be taken.

### POSTAL NOTES.

Postal Notes are issued of the following classes and value:—

One-shilling note, printed with green ink ..	4d.	Five-shilling note, printed with blue ink ..	2d.
Half-crown note, printed with red ink ..	1d.	Ten-shilling note, printed with lilac ink ..	3d.

Every note is payable to bearer on demand, *unless crossed*.

The shilling note is backed by a telegraph form, which, when filled up with a message of ten words will be received at any Telegraph Office, and transmitted to any station within the colony as a paid telegram.

\* The Official Regulations in connection with the new Post and Telegraph Act were not published when Slater's Almanac was printed.

## ELECTRIC TELEGRAPH.

The Telegraph Stations in Queensland are open to receive messages from 9 a.m. to 6 p.m. daily, Sundays and Holidays excepted. On Sundays, Good Friday, and Christmas Day, the officers are in attendance from 9 to 9.30 a.m. for urgent business at double rates; and on Government Holidays, from 9 to 10 a.m. and 5 to 6 p.m., for the receipt and despatch of telegrams. *Prepaid telegrams* only may be dropped into the box provided at each Telegraph Station for the purpose, at any time when the office is closed, and will be transmitted when business is resumed. Such telegrams, with full fee, must be enclosed in sealed envelopes. The following are the ordinary charges:—

## TELEGRAPH RATES.

\* The Shilling Rate also applies to New South Wales border stations, viz.: Angledool, Barrington, Goodooga, Hungerford, Mungindi, Murwillumbah, Tweed Heads, and Yetman.

SUNDAY TELEGRAMS, both inland and intercolonial, urgent and ordinary messages, are charged one hundred per cent. more than the usual daily rate.

Press messages, fifty per cent. more than the usual daily rate.

No telegrams will be transmitted after 10 p.m. on Sundays.

Press messages within the colony intended for publication are charged:—

Twenty-four words, 1s.; each additional four words, 1d.

Press messages between any stations in Queensland and New South Wales are charged as follows:—

Ten words, 2s.

Every additional word up to sixteen words, 2d.

Over sixteen and up to one hundred words, 3s.

Every additional one hundred words or portion thereof, 3s.

Press messages between any stations in Queensland, Victoria, and South Australia (Overland line excepted) are charged as follows:—

Ten words, 3s.

Every additional word up to sixteen words, 3d.

Over sixteen and up to one hundred words, 4s. 6d.

Every additional one hundred words or fraction thereof, 4s. 6d.

Press messages between any stations in Queensland and Western Australia are charged half the ordinary rates. Between Queensland and Tasmania, one hundred words, 6s. 6d.

Every additional fifty words or less, 4s. 3d.

## REGULATIONS.

Messages tendered for transmission must be written with ink in a legible manner, in plain language, on the proper form, signed by the sender, and the address must contain all information necessary to avoid delay and ensure delivery. To ensure greater accuracy, all amounts must be expressed in words as well as figures. The words only will be charged for.

Payment of all charges in advance will be required, except the following: Replies to interrogatory messages which contain the words "*Reply paid*;" messages for transmission within the colony of Queensland, or any other of the Australian colonies, marked "*Collect*," when the sender is known to the officer in charge of the despatching station, and guarantees in writing, that in the event of the message not being paid for on delivery, it will be paid for on demand by the sender. In all such messages the word "*Collect*" must be written by the sender as the last word of the message to be despatched; Press messages to be paid for at the receiving station on delivery.

When the sender wishes to pay for a reply, or to have the message repeated or posted, instructions are to be inserted in the address immediately before the name of the terminal station. Messages which are addressed beyond the limits of delivery can be posted to their destination free of charge.

Messages will be delivered free within one mile of the station to which addressed. If beyond that distance, according to the instructions contained in the address. Expenses incurred for portage, cab hire, or boat hire, payable by the receiver will be charged. Messages addressed beyond the limits of delivery, or which do not contain special directions as to transport, may be posted to their address by the terminal Telegraph Station free of charge. Telegrams will be available for inspection by the sender or receiver at the Brisbane Central Station, or a certified copy thereof obtained, during a period of six months from the date of transmission, on payment of a search fee of 2s. 6d. in each instance. In the event of any interruption to communication by which messages may be unusually delayed, it will be optional with the senders, on application before transmission to withdraw their messages and receive back the amount paid. If desired, messages of consequence can be repeated from stations at which received to stations from which originally sent on payment of an additional half rate; but no responsibility will be undertaken, or any claim for compensation entertained, for any errors or mistakes in transmission, or delay in delivery of messages.

Telegrams to stations within the colony marked "*Urgent*," will be received and transmitted as "*Urgent messages*," and will take precedence of all ordinary messages. Double rates are charged for these messages.

Envelopes containing messages for transmission by Telegraph from any place in Queensland, posted at any Post Office not a Telegraph Office, with the words "Telegraph Message only," written thereon above the address, and directed to the nearest Telegraph Office, may be forwarded free of postage; and the officers in charge of the Telegraph Office to which such envelope may be addressed shall transmit the message contained therein to its destination, provided the full fee either in cash or postage stamps, be also enclosed.

A list of the Telegraph Stations in Queensland will be found in the Postal Gazetteer on page 87.

### TELEPHONE EXCHANGE.

Telephone lines will be erected and kept in order by the Post and Telegraph Department on payment in advance of an annual rental at the rate of £5 for the first mile or any intermediate distance, and a proportionate rate of 12s. 6d. for every additional quarter mile or fraction thereof.

Instruments must be provided by subscribers, and where connected with Exchanges are maintained in working order by the Department, for which an extra annual charge of £1 for each instrument is made. Maintenance does not include additions or renewals.

### INTERNATIONAL TELEGRAMS.

By the system of registration of name and address, and the adoption of the word scale of charging, the cost of telegraphing between Brisbane (or any other leading town in Queensland) and London, and many of the principal cities of India, China, Japan, Europe, United States, and other countries, has been greatly reduced. It may be necessary to explain that the name and address of the sender and receiver being registered at the points of departure and arrival, a single word, letter, or number serves for their identification.

A record is open at the Brisbane Central Telegraph Office for the registration of the full address, at which foreign telegrams reaching Brisbane and bearing abbreviated or arbitrary addresses, are to be delivered. No fee is charged for registration. Application for registration to be made by letter to the Superintendent of Electric Telegraphs. Registration can also be effected and messages sent through Reuter's Telegraph Company.

The Telegraph Companies register names and addresses of telegraph correspondents free of charge at all their stations, and in London at 11 Old Broad Street, 8 Leadenhall Street, and 3 Great Tower Street.

Addresses may also be registered at any Government Telegraph Office in England or Scotland upon the payment of one guinea to the Postmaster-General, London. This registration can be effected only at the telegraph station in the town where the firm is established, and not by letter from Australia to London, or *vice versa*, as different firms sometimes select the same code word.

The principal conditions under which messages are transmitted are as follows:—

Words must not exceed fifteen letters in plain language, in European telegrams, nor ten letters in extra European telegrams, in European telegrams each group of five figures or less, and in extra European telegrams each group of three figures or less is charged as one word; otherwise they are charged as two words.

Telegrams may be written in plain language, in code language, or in secret language.

For telegrams, inclusive of name and addresses, from any station in Queensland to places situated in the following countries the price per word is:—

Aden .. .. .	.. 0 10 3	Malacca .. .. .	.. 0 5 11
Cape Colony .. .. .	.. 0 15 5	Penang .. .. .	.. 0 5 11

Press messages between London and Brisbane, 2s. 10d. per word.

## A POSTAL GAZETTEER

BEING A LIST OF ALL POST TOWNS, TELEGRAPH STATIONS, SAVINGS BANKS, MONEY ORDER OFFICES, AND RAILWAY STATIONS IN QUEENSLAND.

WITH TIMES OF DEPARTURE OF MAILS FROM BRISBANE.

EXPLANATION.—The name of the Post Town or Post Office is first given; then follows its distance and bearings from Brisbane (or other town when specially mentioned); then whether it is a Money Order Office, Telegraph Station, Government Savings Bank, or Railway Station; name of Postmaster or Postmistress; and the day of the departure of the mail from Brisbane. When the locality is simply a Telegraph or Railway Station, it will be found indicated by the words "Tel. Stn." or "Railway Station." Distances are in some cases approximate only. At several of the Railway Stations the Station Master now acts as Postmaster; as changes are frequently made the names are not given.

ABBREVIATIONS.—N.S.E.W. for the points of the compass; Tel. Stn. for Telegraph Station; Ry. Stn. for Railway Station; Mon., Tu., Wed., Th., Fri., Sat. for days of the week.

There is now a daily overland mail to Sydney from Brisbane (except on Saturdays), time occupied in transit about 28 hours. The mail closes at the General Post Office at 5.30 p.m., letters can be posted at the Central Railway Station up to 6.15 p.m., and in the Travelling Post Office up to 6.25 p.m., by paying late fee.

The mails for Gympie, Maryborough, Bundaberg, and Mount Perry, and all places *en route* are now carried by train.

The Steamers for Rockhampton and intermediate ports, leave the Brisbane Wharves about three times a week.

The regular mail steamers for the North—Cooktown being the terminal port—leave Brisbane on Saturday; they arrive at Keppel Bay on Sunday night, Flat Top Island Monday, Bowen Tuesday, morning, Townsville Tuesday afternoon, Cairns Thursday morning, Port Douglas Thursday afternoon, and Cooktown Friday morning. On return they leave Cooktown Saturday morning, arriving at Port Douglas at 4 p.m., Cairns at 9 p.m., Townsville on Sunday 3 p.m., Bowen on Monday 10.30 p.m., Flat Top Island Tuesday morning, Keppel Bay Wednesday morning, and Brisbane Thursday.

There is a weekly Mail Service from Townsville to Dungeness, Cardwell, Mourilyan, Geraldton, and Cairns, leaving Townsville on Tuesday night, arriving at Cairns on Thursday morning, and starting from Cairns on its return on Thursday morning reaching Townsville on Saturday night.

There is a weekly Mail Service between Brisbane and Burketown leaving Brisbane on Tuesday afternoon, and calling at Rockhampton, Flat Top Island, Bowen, Townsville, Cairns, Port Douglas, Cooktown and Thursday Island, reaching Normanton the second Sunday following, and Burketown on Wednesday, returning from Burketown Wednesday, and reaching Brisbane the second Monday following.

Letters for the inland mails can be posted at the General Post Office up to 8 o'clock p.m. In some cases when the mails close very early in the morning the previous day is given.

## LAW CALENDAR.

## IN THE SUPREME COURT OF QUEENSLAND. LAW ARRANGEMENTS FOR THE YEAR 1892.

The Full Court will sit for the purpose of hearing appeals and other business on the days hereafter mentioned. (In the Northern Circuit the Northern Judges will sit on the days stated, for the purpose of hearing and determining such matters and proceedings as would in Brisbane be heard and determined by the Full Court).

At all sittings of the Circuit Courts, Crown business shall be first taken.

The Judge Ordinary in Matrimonial Causes will sit on any one of his Chamber days when there is business on the paper of which parties shall have given notice to the Associate.

Trials and hearings before a single Judge may be set down for any Chamber day of the Judge to whom the Cause is assigned, upon notice being given to the Associate.

Chamber days and hours shall, except as hereinafter provided, be Mondays, Wednesdays, and Fridays, from 10 a.m. to half-past 10 (11 a.m. to half-past 11 in the Northern Circuit), unless there be business in progress; and at 10 a.m. (quarter to 11 a.m. in the Northern Circuit), the Registrar shall send to the Associate a list of all summonses and matters returnable in Chambers, together with all affidavits and papers connected therewith.

Chamber days and hours shall, during the Christmas and Winter Vacations, be Wednesdays, at the same hour.

The offices of the Supreme Court shall be open from 9 a.m. until 4 p.m. (10 a.m. to 4 p.m. in the Northern Circuit) upon all lawful days, except on Saturdays, when the said offices shall be closed at 12 noon; in Vacation, the offices will be open from 9 a.m. to 1 p.m. (10 a.m. to 1 p.m. in the Northern Circuit), except on Saturdays, when they shall close at 12 noon.

The offices will be closed on New Year's Day, St. Patrick's Day (March 17), Good Friday (April 15), Easter Eve (April 16), Easter Monday (April 18), Easter Tuesday (April 19), Queen's Birthday (May 24), Prince of Wales' Birthday (November 9), Separation Day (December 10), Christmas Day (December 25), and three days following Christmas, December 26, 27, and 28. (In the Northern Circuit the offices will also be closed on Foundation Day, January 26th; St. George's Day, April 23; Ascension Day, May 26; Whit Monday, June 6; Whit Tuesday, June 7; St. Andrew's Day, Nov. 30.

Winter Vacation will commence on Saturday, 11th June, 1892, and end on Saturday, 9th July, 1892. (In the Northern Circuit it will commence on Monday, June 27, 1892, and end on Saturday, July 23, 1892.

Christmas Vacation will commence on Saturday, 17th December, 1892, and end on Saturday, 11th February, 1893. (In the Northern Circuit it will commence on Monday, December 12, 1892, and end on Saturday, March 13, 1893).

Solicitors' Managing Clerks who hold certificates from their masters that they have a competent knowledge of the practice of the Court, and Articled Clerks who have passed the intermediate examination, and who hold like certificates, may be heard on applications in Chambers. A list of such clerks must be kept in the Registry, and every alteration of such list must be notified to the Associates. In the absence of such clerks, the solicitors must appear or instruct counsel.

FOR DENOTING THE MOVEMENTS OF VESSELS.

The numbers of the Pendants may be easily recognised, from their comprising as many stripes or stars as they are intended to represent. Any number higher than nine is indicated by one Pendant over another—2 over 8 indicating 28 (Sydney). When two of the same figure require to be shown, as 11 or 22, the White Pendant is used to indicate the second number. Eleven (11) (Cork), would be shown by the Pendant for the 1 and the substitute beneath it.

## DIRECTIONS FOR MAKING A WILL.

A WILL should be made in the plainest language possible; it must be written with ink on paper or parchment, and must be signed at the end of each sheet (if there be more than one) by the Testator (the person who makes the Will) in the presence of two or more witnesses.

The Witnesses, *who must not be in any way beneficially interested in the will*, must strictly comply with every particular required by the Attestation Clause, at the end of which clause they must sign their names. A witness need not know the contents of the Will, which may be so folded, that the Signature and Attestation Clause alone can be seen.

## FORM OF A WILL.

This is the last Will and Testament of me (name) of (address) made this day of One thousand eight hundred and ninety- as follows:—I give, devise, and bequeath all my messuages, lands, tenements, and hereditaments, and all my household furniture, ready money, money secured by life assurance, goods and chattels, and all other my real and personal estate and effects whatsoever, unto my dear wife [or other person as may be] her heirs, executors, administrators, and assigns, to and for her and their own absolute use and benefit, according to the nature and quality thereof respectively, subject only to the payment of my debts, funeral and testamentary expenses, and the charges of proving and registering this my Will. And I appoint my said wife (or other person) executor of this my Will, and hereby revoke all other Wills.

In Witness whereof I have hereunto set my hand this day and year above written.

## ATTESTATION CLAUSE.

Signed, published, and acknowledged by the said as and for his last Will and Testament, in the presence of us, who in his presence and at his request, and in the presence of each other, have subscribed our names as witnesses. ....

## A CODICIL TO A WILL.

A Codicil is to be made with the same regulations as the Will itself, and may be written thus:—

This is a Codicil to my last Will and Testament, bearing date the day of 189 and which I direct to be taken as part thereof. I give, devise, and bequeath, &c. As witness my hand this day of 189

NOTE.—Obliterations and alterations of any sort in the Will ought, if possible, to be avoided; when they have to be made, they must be signed or initialled by the Testator and witnesses on the margin, or as near to the alteration as possible.

NOTE.—Marriage after making a Will renders the Will void, and necessitates another being made.

If a witness be interested in the Will the claim to such interest becomes forfeited.

If a person wishes to dispose of all his property in one gift, the words, "all my real and personal estate," may be used.

Personal property left without a Will, is devisable as under:—If the deceased should leave Children and no Widow, the whole property is to be divided equally among the Children. If he leave a Widow and Child or Children, the former is entitled to one-third and the latter to the remaining two-thirds. If he leave a Widow and no Child, the former is entitled to half, and the next of Kin the remainder, as follows:—A Father, the whole amount; if no Father, a Mother, Brothers or Sisters, or their issue, equal portions; if none, then Uncles, Aunts, Nephews, and Nieces, equal portions.

## PASSENGERS.

## GENERAL INFORMATION.

Children under 3 years of age, "free," over 3 and under 12, half fares.

Passengers starting from any station at which Tickets are issued must, before entering a Railway Carriage, provide themselves with proper Tickets; if they are unable to produce proper

Tickets on demand, they will be liable to pay the fare from the station whence the train started.

Return Tickets between all stations are available as follows:—40 miles and under, 1 week; 41 miles to 150 miles, 2 weeks; 151 miles and over, 4 weeks, exclusive of the day of issue.

Season Tickets will be issued on application to the Railway Office, Brisbane, or to Station Masters, for one, three, six, or twelve months, between all stations, at reduced rates, which can be learned on application at the Railway offices.

Scholars' Season Tickets will be issued at half ordinary season ticket rates to pupils attending any school, upon application by the Master of the school on a printed form to be obtained at railway stations.

Season Tickets (for periods of not less than six months) will be issued at two-thirds of the full season ticket rates, to youths and females under 20 years of age who are earning under £65 per annum. Properly signed declaration form, countersigned by employer, is required to obtain this concession.

Tickets at single fares, and for children under 12 years of age at half single fares for the double journey, will be issued to pupils attending any school during school vacations, on application to the station masters on a proper printed form which must bear the certificate of the principal of the school at which the scholar applying attends. Return Tickets will also be issued during vacations to students attending public schools or colleges in Brisbane, Sydney, or Melbourne—Under 16 years of age, half single fares; over 16 years of age, full single fares, on production of duly signed certificates.

For School Excursions in parties of not less than 50 scholars, half fare, irrespective of age for scholars; adults, single fares for the double journey.

Return Tickets at single fares will also be issued to State School Teachers and teachers in Grammar Schools during school vacations on application to station-masters on the proper printed form duly certified.

First-class Season Tickets will be issued to Ministers of Religion between any given points, available for either three, six, or twelve months, at reduced rates, on application to the Railway Commissioners, or nearest Traffic Manager.

First-class Season Tickets will be issued to commercial travellers at special rates according to distance, from 50 miles and under for £10; to 1000 miles for £75; the rate for all lines being £100. Tickets issued to commercial travellers may be transferred (in the case of a traveller leaving his employers) to his successor on the application of the firm, and payment of 10s. registration fee, when a new ticket will be issued.

Theatrical companies of not less than six will be allowed to travel first-class for second-class fares on the Queensland Railways, and also between Brisbane and Sydney.

Athletic clubs or teams, when travelling in parties of 12 or more, can obtain special tickets at a reduction of 25 per cent off the ordinary fares.

Season Tickets at one-fourth ordinary rates will be issued to the reporting staff of any newspaper published in the colony, available for use by any one reporter whose name has been previously submitted and approved of by the Commissioners. This ticket only to be used, when the reporter is travelling on press business.

RESERVED CARRIAGE.—When compartments are reserved for any person or persons, the fare will be as follows:—Saloon compartment, ten

first-class fares; small compartment, four first-class fares.

**SPECIAL TRAINS.**—The charge for a Special Train will be:—For any distance, 5s. per mile; minimum charge, £5. All passengers to take tickets in addition at ordinary rates. For the return journey the charges will be half the above rates and fares, and one-half the mileage rate, provided the Return Special starts within 12 hours from time of arrival.

#### CLOAK ROOM CHARGES.

Parcels and the personal luggage of any passenger by railway may, for convenience, be deposited in the cloak room of a railway station, but the Commissioners are not liable in the respect of the loss of any parcel or luggage for any claim in excess of the sum of ten pounds.

Each parcel of 56lbs. or under, 2d. for 24 hours; 112lbs. and under, 3d.; 224lbs. and under, 4d. Additional charge for parcels left beyond 24 hours. On leaving a parcel, a ticket will be given. These tickets are in duplicate parts, one to be affixed to the package, the other being retained by the owner and presented at the Cloak Room when delivery is affixed for.

#### HORSE, CARRIAGE, AND DOG RATES.

The Commissioners will not be responsible for any loss or damage whatsoever, that may be sustained by these while upon railway premises or vehicles, unless such loss or damage has been occasioned by neglect on the part of the railway employees, and then only to the extent of £25 on any horse.

**RACEHORSES.**—Ordinary rates are charged for racehorses to places where race meetings are held, and if unsold and returned within a week, will be carried free on the return journey. Certificates signed by the Secretary of the Race Club must be handed to the station master at the time the horses are forwarded and returned.

Grooms or jockeys accompanying racehorses and travelling in horse boxes will be charged second class fares.

**HORSES IN HORSE BOXES.**—One horse, 4d per mile up to 200 miles; and 3d. per mile above 200 added to the charge for 200 miles. Minimum charge, 5s. Two horses belonging to same owner in same horse box, 3d. each per mile up to 200 miles, and 2d. each per mile above 200 added to the 200 miles charge. Minimum charge, 7s. 6d. Entire horses will be charged the same as two horses; but the owner will have the privilege of loading another horse belonging to himself in the same box, at his own risk, without extra charge. Mare and foal at foot will be charged as one and a-half horses.

**DOGS AND SMALL ANIMALS.**—10 miles and under, 3d.; 11 to 20 miles, 6d.; 21 to 40 miles, 9d.; 41 to 80 miles, 1s. 6d.; 81 to 100 miles, 2s.; 101 to 130 miles, 2s. 6d.; 131 to 150 miles, 3s.; 151 miles to 200 miles, 4s.; 201 miles to 250 miles, 5s.; 251 miles to 300 miles, 6s.; and 6d. for each additional 50 miles or part.

**CARRIAGES.**—5d. per mile for first 100 miles; 101 to 200 miles, 4d. per mile added to the 100 mile amount; 201 to 300 miles, 3d. per mile added to the 200 mile amount; over 300 miles, 2d. per mile added to the 300 mile amount.

Rates for the conveyance of horses and carriages on the Mackay, Bowen, and Cooktown Railways shall be 3½ per cent. higher, and on the Cairns and Normanton Railways 50 per cent. higher than on the other lines.

**PASSENGER LUGGAGE.**—First-class passengers are allowed 112lb of personal luggage, and second-class passengers, 84lbs. Any excess of these quantities will be charged at parcel rates if carried by passenger train.

**COMMERCIAL TRAVELLERS' SAMPLES.**—Will be conveyed by passenger train at half parcel rates, provided the owner assists to load and unload if required, and provided there is room in the brake van, and the train will not be delayed thereby.

### PARCELS, GOODS, & LIVE STOCK RATES.

The following are the rates at which parcels (stamped and unstamped) are carried on all Railways, exclusive of the Mackay, Bowen, Cairns, Cooktown, and Normanton Lines:—

#### PARCELS RATES.

Miles.	3 lbs. and under.		4 to 7 lbs.		8 to 14 lbs.		15 to 28 lbs.		Parcels over 28 lbs. in weight to be charged for each extra lb. as under.

301 to 400 miles	1	9	2	3	3	9	4	6	0	1½
401 to 500 miles	2	0	2	3	3	5	6	0	2	

Rates for the conveyance of parcels on the Mackay, Bowen, and Cooktown Railways are 3½ per cent. higher, and on the Cairns and Normanton Railways 50 per cent. higher than the above rates.

All parcels, to admit of their being booked, must be at the stations fifteen minutes before the advertised time of the departure of the train by which they are required to be forwarded.

The Commissioners will not be liable for the loss of, or injury to, any parcel where the value exceeds £10, unless at the time of sending, the value and nature of the parcel is declared, and a special risk rate paid.

Bicycles, tricycles, perambulators, birds in cages, hat and bonnet boxes, and cases of millinery, will be charged at double rates.

Newspaper parcels and dispatches are carried at half parcel rates, with a minimum charge of 3d.

Packages of game, fresh fish, fresh meat, fresh fruit, vegetables, ice, and bread, will be carried at owners' risk only, at half parcel rates; minimum charge, 6d. Carriage of all perishable articles must be prepaid.

Packed parcels—that is, parcels addressed to separate consignees and enclosed in one, quadruple rates.

#### STAMPED PARCELS.

Adhesive Parcel Stamps, similar to Postage Stamps, will be issued at the Office of the Commissioners for Railways, Brisbane, and at all principal railway stations, for parcels not exceeding 56lbs. in weight. All stamped parcels must be booked.

#### LIVE STOCK RATES.

All live stock to be loaded and unloaded by owners, and carried at owner's risk.

**CATTLE.**—The minimum charge for 10 miles and under, is as follows:—Half 4 wheel wagon (2 head and under), 4s.; 4 wheel wagon (over 2 head), 5s. 6d.; 6 wheel wagon, 8s. 6d.; 8 wheel wagon, 3½ per cent. additional to the 6 wheel wagon rates; beyond this distance, a specific rate for each mile carried.

## QUEENSLAND RAILWAYS—Continued.

**SHEEP, GOATS, AND PIGS.**—The minimum charge for 10 miles and under is—Half 4 wheel van, 5s.; 4 wheel van, 6s.; 6 wheel van, 10s. 6d. 50 miles; half 4 wheel van, 13s. 6d.; 4 wheel van, 20s.; 6 wheel van, 44s. 6d. 100 miles; half 4 wheel van, 25s. 6d.; 4 wheel van, 38s.; 6 wheel van, 84s.; longer distances at proportionate rates.

Single calves, pigs, goats, or sheep in crates, cases, or sacks, will be charged under the Goods Classification; but if sent without being properly protected, will be charged as half a wagon of sheep. Small calves at foot will be carried free.

A return second-class free pass will be issued to drover or drovers accompanying live stock, on the basis of one pass to each 500 cattle or 500 sheep, on condition that they attend to the same during carriage. Such pass will include a dog for each drover.

## GOODS RATES.

Goods are charged at schedule rates per mile according to the following classification:—Mineral Class; Special and Agricultural, A and B Classes; Merchandise Classes 1, 2, and 3.

The minimum rates per ton for 10 miles and under, are as follows:—
